### **DETAILED ACTION**

1. The information disclosure statements filed 6/26/03 and 11/21/03 have been considered.

#### ***Allowable Subject Matter***

2. Claims 1-18 are allowed.
3. The following is an examiner's statement of reasons for allowance: The claimed method as set forth in claim 1 and corresponding apparatus as set forth in claim 10 that are used during the positioning of a head (seeking and start of following) to compensate for an overshoot problem by producing a disturbance compensation signal based on a driving signal and a voltage signal which is then used to form a control signal through the use of a gain adjustment coefficient having a constant other than 1 or a variable having a value other than 1 at any point in time and where the driving signal is produced by adding the control signal with a position control signal is neither taught by nor an obvious variation of the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kokami et al. teaches to use a linear control mode during a tracking operation and a pulse width mode during a seek operation to reduce seek time
